CLEAN BRIGHT PRINTS EVERY TIME

MASTER Portable Liquid Duplicators

Just type, write or draw on the paper master, with attached carbon. Clamp the prepared master in position on the printing bed of the machine. Apply a little clear, colorless duplicating fluid into the machine and you're ready to print. Clean bright prints every time. As many as 300 from one master. No waste. Print up to five colors at one time if you wish. Merely substitute carbons of different colors beneath the master. Red, green, blue, purple, and black or any combination.

Prints letters, business forms, bulletins, postcards, menus, etc.—anything you can type, write or draw.

NO INK
NO GELATIN
NO STENCILS

FEATURES:

- **Proved moistening system** same as on most expensive rotary liquid duplicators.
- **Two trays inside cover** serve as handy storage for stock and printed sheets while printing.
- **Low initial cost**—pays for itself in one or two printing jobs.
- **Minimum operating expense.** Less preparatory cost, inexpensive supplies.
- **No special training** or skilled operator necessary.
- **Prints 10 to 15 copies** per minute depending on operator's skill and nature of the work.
- **Clean**—prints with spirit solution. No messy inks, stencils or gelatins.
- **Easy to carry.** Each machine comes with its own metal case, weighs 15 pounds.
- **Two-year guarantee.** By manufacturer against faulty workmanship and material.
